

NJ Warehouse Closed for Inventory

Thank you for your continuous support to Fuji Electric. Our semi-annual Physical Inventory in our New Jersey location is now scheduled and the warehouse will be closed temporarily. Please make note of these dates during which time all transactions, including Will Call will be suspended. Please plan accordingly for your orders to ship prior to these dates.

In the event of emergencies, our other warehouse locations will remain open and doing business as usual so we can support some of your short-term needs. Thank you for your patience and we look forward to serving you far into the future. If you have any questions or concerns, please contact our Customer Service Dept.
